

This is magnetic mount external antenna. It is constructed with stainless steel whip and a heavy metal base for maximum stability.

Specification

Frequency:	900/1800Mhz
Nominal Impedance:	50 Ohm
Gain:	9dBi
WSWR:	< 2.0:1
Polarization:	Vertical
Type:	External Antenna
Max. Power:	20 W
Connector type:	SMA male

Mechanical Parameters

Height:	465 mm
Weight:	2kg
Material:	Stainless steel
