

5 GHz Dual-Polarized Panel Antenna

WDB-5.1G-180

This Dual-Polarized Panel Antenna is a high performance panel 801.11a WiFi antenna for the 5G ISM band. It is designed with durable UV and chemical resistant fiberglass for maximum durability in outdoor environments.

Specification

Frequency:	5150 – 5850 Mhz
Nominal Impedance:	50 Ohms
Type:	1/4 Wave
Gain:	18dBi
WSWR:	< 1.5:1
Horizontal Beamwidth:	25 degree
Vertical Beamwidth:	25 degree
Polarization:	Vertical/Horizontal

Mechanical Parameters

Color:	White
Connector:	SMA
Dimension (mm):	268x268x22
